Course Description:

CRTW 201 is a course that focuses on critical reading, critical thinking, and deliberative/argumentative writing. It builds upon skills acquired in WRIT 101 and GNED 102. Students will read, write, and discuss, in an effort to further develop their skill as college writers and as critical thinkers. Course goals include:

2. To use writing, reading, speaking, and critical thinking to foster intellectual growth in an academic environment.
3. To recognize critical thinking and problem solving strategies in different academic disciplines and for different audiences.
4. To evaluate arguments, evidence, and the contexts in which they appear.
5. To prepare for writing by carefully analyzing evidence.
6. To plan, organize, and develop essays based on introspection, general observation, deliberation, research, and the critical reading of mature prose texts drawn from varied disciplines.
7. To learn to revise effectively by completely rethinking, restructuring, and rewriting essays.
8. To recognize individual writing voices and learn how those voices can be adapted to fit different audiences and rhetorical situations.
9. To improve oral communications skills through class discussions and small group activities.

Group Project

Read and research the topic/chapter in Postman that your group has been assigned. Then prepare a presentation for the class. Your group will be required to teach and lead class discussion for the entire class period. Note: Your presentation should be more than just a lecture on the material.

Present the material, but in a way that a) engages the class b) makes the ideas relevant to the modern-day reader and c) encourages critical thinking on the topic.

On the day of the presentation, the group will turn in:

- 1) A short “essay” describing the ideas they plan to present to the class. (This essay must include a bibliography in MLA format citing research sources.)
- 2) A lesson plan that details *how* they will present the material and *why* they have chosen that particular method of presentation
- 3) A “log” (This should record the times the group met, who attended each meeting, the time spent in the library, planning the presentation, typing up the findings, etc.)

Additionally, each individual student will turn in:

- 1) A self evaluation, explaining their contribution to the project
- 2) An evaluation of each of the other group members, detailing their contributions
- 3) An evaluation of the group as a whole: How well did everyone work together? Did everyone contribute equally?
