

## **Biology Minor for Psychology Majors: Recommended Courses**

18 semester hours of BIOL to include at least 6 hours in courses numbered above 300.

The following courses are recommended for consideration:

BIOL 150/151 (4) Elements of Living Systems/ Lab

BIOL 203/204 (4) Principles of Biology Lab and Principles of Biology

BIOL 307 (4) Human Anatomy

BIOL 308 (4) Human Physiology

BIOL 518 (3) Animal Behavior (prerequisites may be waived for Psychology Majors; students should consult with Dr. Bill Rogers prior to registering for course)

BIOL 317 (3)- Genetics (PSYC 301 and 302 will substitute for the BIOL 300 prerequisite and the Chemistry prerequisites may be waived for Psychology majors)

BIOL 517 (3)- Human Genetics (might also be taken if the student completes BIOL 317 first)
