Scratch Part 1

You get to be creative!

You will be making a project on Scratch: http://scratch.mit.edu

Make sure to share your project online, there is a share button so that I can see it.

Create a Scratch program from the lessons we’ve learnt

- Your program will begin when the green flag is clicked and end when the red button is clicked
- Your program must include 2 or more Sprites.
- It must also include at least 6 of the following things:
  - Moving
  - Turning
  - Bouncing from side to side
  - Changing Color
  - Changing Costumes, Effects
  - Sounds
  - Speech Bubbles
  - Drawing your own Sprites
  - Actions invoked when a key is pressed
  - Moving towards other Sprites

Sample Ideas

Listed on the next page.
Pong!

A colorful ball - when you move it draws!
A Story with Characters Talking to each other

by goodness I've discovered motion

A Magic Eight Ball, When you click it you get a fortune
How to Submit

- Create an account at [http://scratch.mit.edu/](http://scratch.mit.edu/)
- **Share your project online through clicking the Share button**
- Include the link to your program online on Blackboard
- Include any instructions required to make your program run. e.g. Press the key to kick

Grade Breakdown
